T SERIES

VERY THIN, VERY LIGHT AND VERY MOBILE — THOUGHTFULLY DESIGNED WITH ADVANCED TECHNOLOGY

THE LENOVO® THINKPAD® T410s NOTEBOOK

ThinkPad T-Series notebooks are designed to give a perfect blend of portability, performance and energy-efficiency. The new enhanced ThinkPad T410s design incorporates the best T-Series features, in a sub four-pound form factor which now includes NVIDIA® graphics with 512MB memory.

ThinkPad T-Series notebooks come equipped with the new Intel® platform and a wide range of technologies and features. Major enhancements are made to an already best-in-class keyboard through improved ergonomic design, a multitouch TouchPad for easier navigation, individual microphone and speaker audio mute buttons and fingerprint reader with LED indicators. The innovative Multitouch display supports four-finger touch with a library of gestures including scroll, zoom, rotate, select, right click and page up / down, among others.

ThinkPad T410s notebooks are engineered with Lenovo's Enhanced Experience for Windows®7, which means faster start-up and shut-down time, along with increased productivity for business with new hardware and software innovations. The ThinkPad T410s includes the ThinkVantage® Client Security Solution with an integrated fingerprint reader for extra protection against data theft. Fingerprint Power-On Authentication in the ThinkPad T410s provides power-on or wake-up from Suspend / Hibernate / Power Off states, directly from the fingerprint reader.

The ThinkPad T410s notebook is optimized for VOIP with dual digital microphones, an integrated 2MP camera with low light capture capability, louder speakers and VoIP Fn + F6 hotkey combination. The integrated camera offers an improved user experience for video-centric applications. It can be used for video-integrated instant messaging, conferencing and Internet telephony.
